This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Hapless.....Riverside Malta Blood Oranges.
Happy.....Riverside Budded Oranges.
Harass.....Assorted sizes, including 128, 146, 176, 200, 226 to the box, no special number of any particular size guaranteed, we endeavor to average up each car-load, so as to serve each buyer as nearly alike as possible with the Oranges we are packing at the time.
Harbor.....Riverside Washington Navel Oranges, usual assorted sizes, 96, 112, 128, 146, 176 and 200 to the box.
Hardness.....Riverside Paper Rind St. Michael Oranges, usual assorted sizes, including 176, 200, 226, 250 and 300 to the box.
Hardship.....Riverside Washington Navel Oranges, our brand, with fancy Lithographed Labels on end of box.
Hardy.....Oranges wrapped with white tissue printed (our trade-mark) on every Orange.
Hairlip.....Wrapped with tissue wrappers, but only top layer having printed wrappers.
Harem.....We quote to-day, for immediate acceptance by wire, one car-load only, f. o. b. Riverside, terms 30 days net cash, no discount, buyer agreeing to accept our draft when presented by Bank.
Harlot.....From the moment we deliver a car-load of Oranges to the Railway Co. and accept Bill of Lading for same, our responsibility ceases, and fruit becomes the property of the buyer and is at his risk from frost, decay, or any accident which may occur to it before and after it reaches its destination.

Harm.....We never pack a box of Oranges until it is sold; every car-load we ship is packed on the day it is loaded into the car; we pack only perfectly sound, selected fruit, consequently every car-load of our brand of Oranges is in merchantable condition when it leaves Riverside.

Harmful.....We reserve the privilege of putting 25 boxes of "off" sizes of Oranges in every car-load we sell, these "off" sizes to be billed at fifty cents less than regular sizes. The "off" sizes are in Seedlings, Med. Sweets and Budded, 96, 112, 250 and 300.
